UK Declaration of Conformity Pressure Equipment (Safety) Regulations 2016

Document No.: 923-2892 Rev.: A 24/264

We declare under our sole responsibility that products:

Type: **D1T, D2T, D1X, D2X, D1K, D2K, DPD1T, DPD2T, D3S, D3H.**

Description: **Metal diaphragm type pressure switches and differential pressure switches**

as Pressure Accessory have been verified for the design criteria:

- Maximum allowable pressure for all pressure ranges: up to 20 bar
- Diameter of process connection < 12 mm bore.

are for all Group 1 and 2 fluids verified, and we declare for all versions:

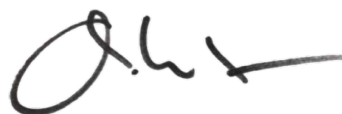

Sound engineering practice SEP

This does not mean that the product is less safe and it can, depending on application, still be installed in systems with Category III, for example.

The SEP Category however, explicitly rules out a UKCA-Logo on the unit.
